

CURRICULUM VITAE

CHRISTOPHER T. SOLOMON

CARY INSTITUTE OF ECOSYSTEM STUDIES. Millbrook, NY, United States of America
Office: 2801 Sharon Turnpike, Millbrook, NY
Mail: Box AB, Millbrook, NY 12545-0129
Phone: 845-677-7600 Skype: ctsolomon
Email: solomonc@caryinstitute.org Twitter: [@CT_Solomon](https://twitter.com/CT_Solomon) Web: <http://www.caryinstitute.org/solomon>

RESEARCH INTERESTS

Ecology and management of lakes and other aquatic systems. Effects of terrestrial organic matter on lake ecosystems and food webs. Fish ecology and conservation. Ecosystem metabolism and lake carbon cycles. Social-ecological dynamics of recreational fishery landscapes. Statistics and modeling in ecology.

EDUCATION

UNIVERSITY OF WISCONSIN, Madison, Wisconsin.
Zoology. Ph.D. 2008.
Advisor: Dr. Jake Vander Zanden

CORNELL UNIVERSITY, Ithaca, New York.
Natural Resources. B.S. 2001, *magna cum laude* with distinction in research.

ACADEMIC APPOINTMENTS

CARY INSTITUTE OF ECOSYSTEM STUDIES. Millbrook, New York. <i>Associate Scientist</i>	2016-present
MCGILL UNIVERSITY, Department of Natural Resource Sciences. Montréal, Québec. <i>Adjunct Professor</i>	2016-present
MCGILL UNIVERSITY, Department of Natural Resource Sciences. Montréal, Québec. <i>Associate Professor</i>	2016
MCGILL UNIVERSITY, Department of Natural Resource Sciences. Montréal, Québec. <i>Assistant Professor</i>	2010-2016
GLOBAL LAKES ECOLOGICAL OBSERVATORY NETWORK UNIVERSITY OF WISCONSIN, Center for Limnology. Madison, Wisconsin. <i>Postdoctoral Research Associate</i>	2008-2010
UNIVERSITY OF CALIFORNIA, Dept. of Earth and Planetary Sciences. Berkeley, California. <i>Staff Research Associate</i>	2002-2003

PUBLICATIONS

Up-to-date list [here](#).

In review

Koizumi, S., N. Craig, J.A. Zwart, P.T. Kelly, J.P. Ziegler, B.C. Weidel, S.E. Jones, and C.T. Solomon. In review. Experimental whole-lake dissolved organic carbon increase alters fish diet and density but

not growth or productivity.

- Zwart, J.A., O. Hararuk, Y.T. Prairie, S.E. Jones, and C.T. Solomon. In review. Improving estimates of lake carbon pools and fluxes using data assimilation.
- Hararuk, O., J.A. Zwart, S.E. Jones, Y. Prairie, and C.T. Solomon. In review. Importance of physical and climatic controls on lake carbon cycling revealed through data-model fusion.
- Kelly, P.T., C.T. Solomon, J.A. Zwart, and S.E. Jones. In review. A framework for understanding spatial and temporal variation in gross primary production of lake ecosystems.
- Lenker, M.A., A.W. Latzka, and C.T. Solomon. In review. Timing of lake trout spawning shifts earlier over half-century period.
- Elchyshyn, L., J.-O. Goyette, E. Saulnier-Talbot, R. Maranger, C. Nozais, C.T. Solomon, and I. Gregory-Eaves. In review. Quantifying the effects of hydrological changes on long-term water quality trends in temperate reservoirs: insights from a multi-scale, paleolimnological study.

In press

- Jones, S.E., J.A. Zwart, P.T. Kelly, and C.T. Solomon. In press. Hydrologic context constrains lake heterotrophy and terrestrial carbon fate. *Limnology and Oceanography Letters*.

Published

- 47) Ross, A.J., B.C. Weidel, M.A. Lenker, and C.T. Solomon. In review. Evidence for migratory spawning behavior by morphologically distinct Cisco (*Coregonus artedii*) from a small inland lake. *American Midland Naturalist* 178:237-244.
- 46) Craig, N., S.E. Jones, B.C. Weidel, and C.T. Solomon. 2017. Life history constraints explain negative relationship between fish productivity and dissolved organic carbon in lakes. *Ecology and Evolution* 7:6201-6209.
- 45) Zwart, J.A., S.D. Sebestyen, C.T. Solomon, and S.E. Jones. 2017. The influence of hydrologic residence time on lake carbon cycling dynamics following extreme precipitation events. *Ecosystems* 20:1000-1014.
- 44) Weidel, B.C., K. Baglini, S.E. Jones, P.T. Kelly, C.T. Solomon, and J.A. Zwart. 2017. Light climate and dissolved organic carbon concentration influence species-specific changes in fish zooplanktivory. *Inland Waters* 7:210-217.
- 43) Ziegler, J.P., C.T. Solomon, and I. Gregory-Eaves. 2017. Refuge increases food chain length: modeled impacts of littoral structure in lake food webs. *Oikos* 126:1347-1356.
- 42) Ziegler, J.P., E.J. Golebie, S.E. Jones, B.C. Weidel, and C.T. Solomon. 2017. Unexpected social-ecological outcomes in recreational fisheries: the interaction of lakeshore development and stocking. *Ecological Applications* 27:56-65.
- 41) Vanni, M., and 71 others. 2017. A global database of nitrogen and phosphorus excretion rates of aquatic animals. *Ecology* doi:10.1002/ecy.1792.
- 40) Tanentzap, A.J., B.W. Kielstra, G.M. Wilkinson, M. Berggren, N. Craig, J. Grey, J.M. Gunn, S.E. Jones, J. Karlsson, C.T. Solomon, P.A. del Giorgio, and M.L. Pace. 2017. Terrestrial support of lake food webs: synthesis reveals controls over cross-ecosystem resource use. *Science Advances* 3: e1601765.
- 39) Solomon, C.T. 2017. Dissolved organic matter causes genetic damage in lake zooplankton via oxidative stress. *Functional Ecology* 31:806-807.
- 38) Turgeon, K., C.T. Solomon, C. Nozais, and I. Gregory-Eaves. 2016. Do novel ecosystems follow predictable trajectories? Testing the trophic surge hypothesis in reservoirs using fish. *Ecosphere* 7: e01617.
- 37) Vachon, D., C.T. Solomon, and P.A. del Giorgio. 2016. Reconstructing the seasonal dynamics and relative contribution of the major processes sustaining CO₂ emissions in northern lakes. *Limnology and Oceanography* 62:706-722.
- 36) Kelly, P.T., N. Craig, C.T. Solomon, B.C. Weidel, J.A. Zwart, and S.E. Jones. 2016. Experimental whole-lake increase of dissolved organic carbon concentration produces unexpected increase in

- zooplankton biomass and production. *Global Change Biology*. 22:2766-2775
- 35) Benoît, P.-O., B.E. Beisner, and C.T. Solomon. 2016. Growth rate and abundance of common fishes is negatively related to dissolved organic carbon concentration in lakes. *Canadian Journal of Fisheries and Aquatic Sciences* 73:1230-1236.
 - 34) Zwart, J.A., N. Craig, P.T. Kelly, C.T. Solomon, B.C. Weidel, and S.E. Jones. 2016. Metabolic and physiochemical responses to a whole-lake experimental increase in dissolved organic carbon in a north-temperate lake. *Limnology and Oceanography* 61:723-734.
 - 33) Lenker, M.A., Weidel, B.C., Jensen, O.P., and C.T. Solomon. 2016. Developing recreational harvest regulations for an unexploited lake trout population. *North American Journal of Fisheries Management* 36:385-397.
 - 32) Craig, N., S.E. Jones, B.C. Weidel, and C.T. Solomon. 2015. Habitat, not resource availability, limits consumer production in lake ecosystems. *Limnology and Oceanography* 60:2079-2089.
 - 31) Zwart, J.A., C.T. Solomon, and S.E. Jones. 2015. Phytoplankton traits predict ecosystem function in a global set of lakes. *Ecology* 96:2257-2264.
 - 30) Hanna, D.E.L., C.T. Solomon, A.E. Poste, D. Buck, and L.J. Chapman. 2015. A review of mercury concentrations in freshwater fishes of Africa: patterns and predictors. *Environmental Toxicology and Chemistry* 34:215-223.
 - 29) Vander Zanden, M.J., E.K. Moody, C.T. Solomon, and B.C. Weidel. 2015. Patterns of stable isotope turnover and half-life in animal tissues. *PLOS ONE* 10:e0116182.
 - 28) Solomon, C.T., S.E. Jones, B.C. Weidel, I. Buffam, M.L. Fork, J. Karlsson, S. Larsen, J.T. Lennon, J.S. Read, S. Sadro, and J.E. Saros. 2015. Ecosystem consequences of changing inputs of terrestrial dissolved organic matter to lakes: current knowledge and future challenges. *Ecosystems* 18:376-389.
 - 27) Ziegler, J.P., C.T. Solomon, B.P. Finney, and I. Gregory-Eaves. 2015. Macrophyte abundance predicts food chain length in shallow lakes. *Ecosphere* 6:art5.
 - 26) Godwin, S.C., S.E. Jones, B.C. Weidel, and C.T. Solomon. 2014. Dissolved organic carbon concentration controls benthic primary production: results from in situ chambers in north-temperate lakes. *Limnology and Oceanography* 59:2112-2120.
 - 25) Sadro, S., G.W. Holtgrieve, C.T. Solomon, and G.R. Koch. 2014. Dissolved organic matter and lake productivity affect overnight patterns of ecosystem respiration in a global set of lakes. *Limnology and Oceanography* 59:1666-1678.
 - 24) Rose, K.C., L. Winslow, J.S. Read, E.L. Kara, C.T. Solomon, R. Adrian, and P.C. Hanson. 2014. Understanding variability in ecosystem metabolism estimates: the important role of physics. *Limnology and Oceanography: Methods* 12:303-312
 - 23) Kelly, P.T., C.T. Solomon, B.C. Weidel, and S.E. Jones. 2014. Terrestrial carbon is a resource, but not a subsidy, for lake zooplankton. *Ecology* 95:1236-1242.
 - 22) Solomon, C.T., D.A. Bruesewitz, D.C. Richardson, K.C. Rose, M.C. Van de Bogert, P.C. Hanson, T.K. Kratz, B. Larget, R. Adrian, B.L. Babin, C.-Y. Chiu, D.P. Hamilton, E.E. Gaiser, S. Hendricks, V. Istvánovics, A. Laas, D.M. O'Donnell, M.L. Pace, E. Ryder, P.A. Staehr, T. Torgersen, M.J. Vanni, K.C. Weathers, and G. Zhu. 2013. Ecosystem respiration: Drivers of daily variability and background respiration in lakes around the globe. *Limnology and Oceanography* 58:849-866.
 - 21) Cole, J.J. and C.T. Solomon. 2012. Terrestrial support of zebra mussels and the Hudson River food web: a multi-isotope, Bayesian analysis. *Limnology and Oceanography* 57:1802-1815.
 - 20) Jones, S.E., C.T. Solomon, and B.C. Weidel. 2012. Subsidy or subtraction: How do terrestrial inputs influence consumer production in lakes? *Freshwater Reviews* 5:37-49.
 - 19) Nilsson, E., C.T. Solomon, K.A. Wilson, T.V. Willis, B. Larget, and M.J. Vander Zanden. 2012. Effects of an invasive crayfish on trophic relationships in north-temperate lake food webs. *Freshwater Biology* 57:10-23.
 - 18) Solomon, C.T., B.M. Roth, T.R. Hrabik, and M.J. Vander Zanden. 2011. Comparing energetic and dynamic descriptions of a single food web linkage. *Oikos* 120:194-199.
 - 17) Solomon, C.T., S.R. Carpenter, M.K. Clayton, J.J. Cole, J.J. Coloso, M.L. Pace, M.J. Vander Zanden, and B.C. Weidel. 2011. Terrestrial, benthic, and pelagic resource use in lakes: results from a three-

- isotope Bayesian mixing model. *Ecology* 92:1115-1125.
- 16) Cole, J.J., S.R. Carpenter, J.F. Kitchell, M.L. Pace, C.T. Solomon, and B.C. Weidel. 2011. Strong evidence for terrestrial support of zooplankton in small lakes based on stable isotopes of carbon, nitrogen, and hydrogen. *Proceedings of the National Academy of Sciences of the United States of America* 108:1975-1980.
 - 15) Solomon, C.T., J.D. Olden, P.T.J. Johnson, R.T. Dillon, Jr., and M.J. Vander Zanden. 2010. Distribution and community-level effects of the Chinese mystery snail (*Bellamya chinensis*) in northern Wisconsin lakes. *Biological Invasions* 12:1591-1605.
 - 14) Roth, B.M., T.R. Hrabik, C.T. Solomon, N. Mercado-Silva, and J.F. Kitchell. 2010. A simulation of food web interactions leading to rainbow smelt *Osmerus mordax* dominance in Sparkling Lake, Wisconsin. *Journal of Fish Biology* 77:1379-1405.
 - 13) Ball, B.A., J.S. Kominoski, H.E. Adams, S.E. Jones, E.S. Kane, T.D. Loecke, W.M. Mahaney, J.P. Martina, C.M. Prather, T.M.P. Robinson, and C.T. Solomon. 2010. Direct and terrestrial vegetation-mediated effects of environmental change on aquatic ecosystem processes. *BioScience* 60:590-601.
 - 12) Solomon, C.T., E.R. Hotchkiss, J.M. Moslemi, A.J. Ulseth, E.H. Stanley, R.O. Hall, and A.S. Flecker. 2009. Sediment size and nutrients regulate denitrification in a tropical stream. *Journal of the North American Benthological Society* 28:480-490.

 - 1) Solomon, C.T., A.S. Flecker, and B.W. Taylor. 2004. Testing the role of sediment-mediated interactions between tadpoles and armored catfish in a Neotropical stream. *Copeia* 2004:610-616.

FUNDING

Grants in review

- U.S. National Science Foundation. Division of Environmental Biology, Ecosystem Studies. 2018-2023
Regulation of lake productivity by terrestrial dissolved organic matter.
With S. Jones (PI, Univ. of Notre Dame).
- U.S. National Science Foundation, Division of Environmental Biology, Evolutionary Ecology. 2018-2020
Evo-to-eco effects in real ecosystems: plastic and genetic contributions.
With A. Hendry (McGill Univ.) and S. Jones (Univ. of Notre Dame).
- U.S. National Science Foundation. Division of Environmental Biology. 2018-2023
LTREB: Will increases in dissolved organic matter accelerate a shift in trophic status through anoxia-driven positive feedbacks in an oligotrophic lake?
With K. Rose (PI, Rensselaer Polytechnic) and 5 others.

Grants received

- U.S. National Science Foundation. Coupled Natural-Human Systems. 2017-2021
CNH-L: Social-ecological dynamics of recreational fishery landscapes. (\$1,500,000)
With 4 others.
- Natural Sciences and Engineering Research Council of Canada. Strategic Network. 2016-2021
NSERC Canadian Lake Pulse Network. (\$5,500,000)
With Y. Huot (PI, Univ. Sherbrooke) and 18 others. Direct support to Solomon declined.
- Natural Sciences and Engineering Research Council of Canada. Discovery. 2016-2021
Understanding the effects of terrestrially-derived dissolved organic matter on food web productivity and organismal life histories in lakes. (\$150,000)
Years 2-5 declined.
- U.S. National Science Foundation. Division of Environmental Biology, Ecosystem Studies. 2016-2021
Long-term effects of a species invasion on an aquatic ecosystem. (\$450,000)
With D. Strayer (PI, Cary Institute of Ecosystem Studies) and 2 others.
- Fonds de Recherche du Québec: Nature et Technologies. Équipe 2015-2018
Cycles du carbone des lacs et émissions de gaz à effet de serre : fusion données-modèles pour comprendre les mécanismes et prévoir les tendances futures. (Lake carbon cycles and greenhouse gas emissions: model-data fusion to understand mechanisms and predict future trends) (\$213,372)
With P. del Giorgio and Y. Prairie (Univ. du Québec à Montréal).
- The Nature Conservancy – Adirondack Chapter 2015-2016
Research to inform conservation and management of lake trout in Follensby Pond (\$46,288)
(Amendment to previous 2013-2015 contract, for new work).
With B. Weidel (U.S. Geological Survey) and D. Fraser (Concordia Univ.)
- Québec Center for Biodiversity Studies. Seed. 2015-2016
Effects of anthropogenic browning on arthropod biodiversity and ecosystem function of lake food webs. (\$5,000)
With 5 others.

Natural Sciences and Engineering Research Council of Canada. CREATE <i>NSERC CREATE for Enhancing Canada's prosperity through innovative environmental assessment, monitoring and management.</i> With M. Humphries (PI, McGill) and 9 others.	2014-2020 (\$1,650,000)
The Nature Conservancy – Adirondack Chapter <i>Research to inform conservation and management of lake trout in Follensby Pond.</i> With O. Jensen (Rutgers University) and B. Weidel (U.S. Geological Survey)	2013-2015 (\$129,283)
MITACS Accelerate <i>Quantifying the effects of water level drawdowns on lake water quality and biodiversity: a case study of Grand Lac St. François, Québec.</i> With I. Gregory-Eaves (PI, McGill) and C. Nozais (Université du Québec à Rimouski)	2013-2015 (\$166,000)
Québec Center for Biodiversity Studies. Seed. <i>Anthropogenic impacts on biodiversity, fish habitat, and health of Grand Lac St. François and other winter-drawdown lakes and reservoirs.</i> With I. Gregory-Eaves (PI, McGill) and C. Nozais (Université du Québec à Rimouski)	2013 (\$5,000)
Canada Foundation for Innovation. Leaders Opportunity Fund <i>Automated sensors, high-performance computing laboratory, and other equipment for studying terrestrial-aquatic linkages in lake carbon cycles and food webs.</i>	2012-2015 (\$187,500)
Natural Sciences and Engineering Research Council of Canada. Research Tools and Infrastructure <i>Remote, real-time climate monitoring network.</i> With S. Loughheed (PI, Queen's University) and 8 others	2012-2014 (\$148,164)
Natural Sciences and Engineering Research Council of Canada. Discovery <i>Terrestrial inputs to aquatic ecosystems: effects on food webs and carbon cycling</i>	2011-2016 (\$135,000)
Fonds de Recherche du Québec: Nature et Technologies. Nouveaux Chercheurs <i>Liens inter-habitats dans les réseaux trophiques des lacs: quelle est l'influence des forces anthropiques et naturelles sur l'utilisation des ressources et la production des consommateurs? (Cross-habitat connections in lake food webs : what is the influence of natural and anthropogenic forces on resource use and consumer production?)</i>	2011-2013 (\$82,905)
Dr. Louis G. Johnson Foundation <i>How do terrestrial inputs affect fish populations? Equipment for determining fish growth rates.</i>	2011 (\$29,769)
U.S. National Science Foundation. Doctoral Dissertation Improvement Grant <i>Terrestrial subsidies to aquatic food webs: new insights from hydrogen isotopes</i> With M.J. Vander Zanden (Univ. of Wisconsin)	2007-2009 (\$12,000)
U.S. LTER Network Workshop Travel Grant <i>The influence of changes in terrestrial plant community structure on aquatic ecosystem function across the LTER network</i>	2006 (\$7,500)

With J. Kominoski (PI, Univ. of Georgia), and 10 others

TEACHING AND MENTORING

Undergraduate and graduate courses taught

- McGill University, Quantitative Methods in Ecology (ENVB 506). 2010-2016.
- McGill University, Fisheries and Wildlife Management (WILD 401). 2010-2015. With 1-2 co-instructors.
- McGill University, Fish Ecology (WILD 302). 2012 and 2014.
- Cary Institute of Ecosystem Studies, Fundamentals of Ecosystem Ecology. Aquatic primary production module.
- Occasional guest lectures in undergraduate courses and graduate seminars, 2008-present.
- Recipient of the 2014 Award for Teaching Excellence in the Faculty of Agricultural and Environmental Sciences, McGill University. Award citation highlighted that students described my courses as extremely challenging yet gave me excellent course evaluations, and that students appreciated my focus on problem-based learning and my infectious enthusiasm for science and teaching.

Graduate supervision

- Shuntaro Koizumi, MSc. 2015-2017.
- Jacob Ziegler, PhD. 2014-present.
- Melissa Lenker, MSc. 2013-2015.
- Raphaelle Thomas, MSc. 2013-2016.
- Pierre-Olivier Benoît. MSc. 2012-2014.
- Nicola Craig. PhD. 2012-2016.
- Jacob Ziegler. MSc. 2012-2014. (co-supervised with I. Gregory-Eaves).

Postdoctoral supervision

- Dr. Oleksandra Hararuk. 2016-present.
- Dr. Alex Latzka. 2015-2016.
- Dr. Katrine Turgeon. 2013-2015. (co-supervised with I. Gregory-Eaves).
- Dr. Heather Mariash. 2013-2014.

Undergraduate supervision – honors theses and major independent studies

- 15 honors theses and major independent studies between 2005 and present, including Babler et al. 2008 and Godwin et al. 2014 (see publications list).

Graduate committees and thesis examinations

(excluding my own students and those on whose committees I sit)

- Supervisory committee member for 5 MSc and 7 PhD students at 2 universities in past 5 years.
- External graduate thesis examiner for 8 MSc and 15 PhD students at 4 universities in past 5 years.

INVITED PRESENTATIONS

- 20) What determines lake food web productivity? 2017. UMEÄ UNIVERSITY, Umeå, Sweden.
- 19) Social-ecological dynamics of recreational fishery landscapes. 2017. STOCKHOLM RESILIENCE CENTER, Stockholm, Sweden.
- 18) The ecological role of DOC in aquatic ecosystems. 2016. CATSKILL ENVIRONMENTAL RESEARCH AND MONITORING CONFERENCE, Highmount, NY.
- 17) Why we turned a lake brown, and what we learned. 2016. BARD COLLEGE, Annandale-on-Hudson, NY.
- 16) Why we turned a lake brown, and what we learned. 2015. CARY INSTITUTE OF ECOSYSTEM STUDIES, Millbrook, NY.
- 15) Why we turned a lake brown, and what we learned. 2015. CONCORDIA UNIVERSITY, Montréal, QC.
- 14) Subsidy or subtraction: How do terrestrial organic matter inputs affect productivity of lake food

- webs? 2014. JOINT MEETING OF THE BRITISH ECOLOGICAL SOCIETY AND SOCIÉTÉ FRANÇAISE D'ÉCOLOGIE, Lille, France.
- 13) Food web and biogeochemical consequences of global browning of lakes. 2013. UNIVERSITÉ DE MONTRÉAL, Montréal, QC.
 - 12) What I would do with \$10 million – a research agenda from a soapbox. 2013. FRONTIERS IN ECOSYSTEM SCIENCE, U.S. NSF, New Orleans, LA.
 - 11) Identifying source spawning stocks of Lake Ontario cisco (*Coregonus artedii*) using otolith microchemistry. 2012. GREAT LAKES FISHERY COMMISSION, BOARD OF TECHNICAL EXPERTS, Ann Arbor, MI.
 - 10) Global browning: effects of increased terrestrial organic matter loads on food webs and carbon cycles in lake ecosystems. 2012. QUEEN'S UNIVERSITY, Kingston, ON.
 - 9) Cross-habitat connections: effects on food webs and carbon cycling in lakes. 2011. CORNELL BIOLOGICAL FIELD STATION, Bridgeport, NY.
 - 8) Using Bayesian mixing models and stable isotope data to quantify cross-habitat connections in ecological food webs. 2011. STATISTICS 2011 CANADA / FORUM FOR INTERDISCIPLINARY MATHEMATICS, Montréal, QC.
 - 7) Terrestrial inputs to lake ecosystems: Food web subsidy or subtraction? 2011. MCGILL BIOLOGY ORGANISMAL SEMINAR, Montréal, QC.
 - 6) Cross-habitat linkages in lake food webs: are fish made of maple leaves, and so what? 2011. UNIVERSITÉ DU QUÉBEC À TROIS RIVIÈRES, Trois Rivières, QC.
 - 5) When is a subsidy not a subsidy? 2010. MCGILL CEEB RETREAT, Mont St. Hilaire, QC.
 - 4) Cross-habitat linkages in lake food webs: are fish made of maple leaves, and so what? 2010. UNIVERSITÉ DU QUÉBEC À MONTRÉAL, Montréal, QC.
 - 3) Cross-habitat linkages fuel food webs and ecosystem respiration in lakes. 2009. CARY INSTITUTE OF ECOSYSTEM STUDIES, Millbrook, NY.
 - 2) Are fish made of maple leaves or mud? Cross-habitat linkages fuel food webs and ecosystem respiration in lakes. 2009. Dept. of Natural Resource Sciences. MCGILL UNIVERSITY, Montréal, QC, Canada.
 - 1) Food web linkages: understanding cross-habitat connections and allochthonous subsidies in lake ecosystems. 2008. Zoology Department Colloquium. UNIVERSITY OF WISCONSIN, Madison, WI.

CONTRIBUTED PRESENTATIONS

First authored only

- 22) Unexpected outcomes of local governance in recreational fishery social-ecological systems. WORLD RECREATIONAL FISHING CONFERENCE, Victoria, BC.
- 21) Using sensor data and models to understand lake carbon cycles. 2017. NEGLEON, Millbrook, NY.
- 20) Social-ecological dynamics in recreational fishery landscapes. 2017. SOCIETY OF CANADIAN LIMNOLOGISTS / CANADIAN CONFERENCE FOR FISHERIES RESEARCH, Montréal, QC.
- 19) Whole-lake browning experiment reveals DOC effects on consumer production and carbon cycling. 2015. SOCIETY OF CANADIAN LIMNOLOGISTS, Ottawa, ON.
- 18) Ecosystem experiment reveals effects of terrestrial DOC on lake food webs and carbon cycles. 2014. GENOMES TO BIOMES, Montréal, QC.
- 17) Constraining carbon cycle stocks and fluxes by fusing process models with multiple data streams: Should aquatic scientists follow the terrestrial lead? 2014. JOINT AQUATIC SCIENCES MEETING, Portland, OR.
- 16) Terrestrial DOC effects on aquatic food webs – subsidy or subtraction? Evidence from whole-lake experiments, surveys, and models. 2012. ASSOCIATION FOR THE SCIENCES OF LIMNOLOGY AND OCEANOGRAPHY, New Orleans, LA.
- 15) Subsidy or subtraction? Whole-lake experiments, surveys, and models to test the effects of terrestrial

- DOC on aquatic food webs. 2012. ECOLOGICAL SOCIETY OF AMERICA, Portland, OR.
- 14) How do terrestrial inputs influence lake food webs and carbon cycling? 2011. GROUPE DE RECHERCHE INTERUNIVERSITAIRE EN LIMNOLOGIE, St. Hippolyte, QC.
 - 13) Do terrestrial inputs subsidize, substitute for, or subtract from consumer production in lake food webs? 2011. SOCIETY OF CANADIAN LIMNOLOGISTS, Toronto, ON.
 - 12) Drivers of variation in pelagic community respiration. 2010. AMERICAN SOCIETY OF LIMNOLOGY AND OCEANOGRAPHY, Santa Fe NM.
 - 11) Estimating metabolism parameters and uncertainty. 2010. AMERICAN SOCIETY OF LIMNOLOGY AND OCEANOGRAPHY, Santa Fe NM.
 - 10) Terrestrial, benthic, and pelagic resource use: 3-isotope Bayesian mixing model. 2010. AMERICAN SOCIETY OF LIMNOLOGY AND OCEANOGRAPHY, Santa Fe NM.
 - 9) Drivers of temporal variation in pelagic community respiration. 2009. GLOBAL LAKES ECOLOGICAL OBSERVATORY NETWORK, Hamilton, New Zealand.
 - 8) Leading indicators of cyanobacterial blooms in lakes. 2008. GLOBAL LAKES ECOLOGICAL OBSERVATORY NETWORK, Norrtälje, Sweden.
 - 7) Deuterium stable isotopes indicate terrestrial subsidies to aquatic food webs. 2008. ECOLOGICAL SOCIETY OF AMERICA, Milwaukee, WI.
 - 6) Reliance of benthic invertebrates on new primary production: results from a ¹³C addition to a large, clear-water lake. 2007. AMERICAN SOCIETY OF LIMNOLOGY AND OCEANOGRAPHY, Santa Fe, NM.
 - 5) Long-term variation in food web structure in a north temperate lake. 2006. LONG TERM ECOLOGICAL RESEARCH NETWORK, Estes Park, CO.
 - 4) Small energy flux, big effect: Comparing energetic and dynamic measures of interaction strength. 2006. ECOLOGICAL SOCIETY OF AMERICA, Memphis, TN.
 - 3) Long-term variation in food web structure in a north temperate lake. 2005. ECOLOGICAL SOCIETY OF AMERICA, Montréal, QC.
 - 2) Ecosystem-level effects of exotic and native snails in northern Wisconsin lakes? 2004. SCIENCE AND THE NORTHWOODS *Conference*, Boulder Junction, WI.
 - 1) Littoral algivores of Lake Tanganyika: comparing the influence of fishes and snails on biomass of benthic algae. 2003. NORTH AMERICAN BENTHOLOGICAL SOCIETY, Athens, GA.

PROFESSIONAL SERVICE

Institutional activities

- Program director, Environmental Biology major, McGill University. 2014-2016.
- Chair, Information Technology Committee, McGill University, Faculty of Agricultural and Environmental Sciences. 2013-2015.
- Member, Information Technology Committee, McGill University, Faculty of Agricultural and Environmental Sciences. 2011-2013.
- Member, Animal Care Committee, McGill University, Faculty of Agricultural and Environmental Sciences. 2012-2016.
- Member, Vision Committee, McGill University, Dept. of Natural Resource Sciences. 2010-2013.
- Co-developed proposal for new graduate seminar structure, McGill University, Dept. of Natural Resource Sciences. 2012.
- Statistical consulting for departmental graduate students (10-20 hours per year), McGill University, Dept. of Natural Resource Sciences. 2010-2016.

External activities

Professional societies

Association for the Sciences of Limnology and Oceanography, Ecological Society of America, Global Lake Ecological Observatory Network, Society of Canadian Limnologists

Committees

- Member, Award Committee, Ramón Margalef Excellence in Education Award, Association for the Sciences of Limnology and Oceanography. 2017-present.
- Team leader, Native Biological Communities team, Hudson River Comprehensive Restoration Plan. 2016-2017.
- Co-chair, Local Organizing Committee, 2017 Joint Meeting of the Canadian Conference for Fisheries Research and the Society of Canadian Limnologists, Montreal. 2015-2017.
- Member, Collaborative Climate Committee, Global Lake Ecological Observatory Network. 2008-2012.

Reviews

- Reviewer for the following journals (most recent 2 years): *Aquatic Sciences*; *Ecological Applications*; *Ecology*; *Ecology Letters*; *Ecosystems*; *Freshwater Biology*; *Freshwater Science*; *Functional Ecology*; *Journal of Animal Ecology*; *Journal of Applied Ecology*; *Journal of Geophysical Research*; *Proceedings of the National Academy of Sciences*; *Scientific Reports*.
- Reviewer for the following granting organizations (most recent 2 years): National Research Agency of France; Natural Sciences and Engineering Research Council of Canada; U.S. National Science Foundation.

Technology development

- Estimating ecosystem metabolism from continuous free-water dissolved oxygen measurements: maximum likelihood method with bootstrapped uncertainties. 2012. Model code in R. Distributed upon request to >20 research groups.
- Bayesian stable isotope mixing model. 2011. Model code in R and OpenBUGS. Distributed upon request to >10 research groups.
- Data sharing policies and practices. 2011. Invited plenary speaker and workshop participant, Global Lake Ecological Observatory Network, Sunapee, NH.
- Data access, quality assurance, and metadata: development priorities for GLEON from the perspective of data users. 2009. Report to the Global Lakes Ecological Observatory Network.

Knowledge translation and dissemination to the public, policymakers, and resource managers

- Regular meetings with Québec fisheries managers from the Ministère des Ressources Naturelles (Québec, Gatineau, and Charny offices). 2011-2015.
- Background interview with Allan Johnson (CBC News Montréal) on fish kills, 2014.
- Background interview with Mathieu Perreault (*La Presse*) on fish production for popular press article on Claisse et al. 2014 *PNAS* paper.
- Liber Ero Fellow in Science Communication and Policy Engagement. 2013. Received training from science communication professionals and journalists.
- Meeting with Lake Champlain chapter of Trout Unlimited. 2011.
- Impacts of dams on aquatic ecosystems. 2010. Off-air interview, Vermont Public Radio.
- Sensor networks and environmental change. 2009. On-air interview, WSUM radio, Madison, WI.
- Rainbow smelt in Wisconsin: distribution, impacts, and management. 2009. Invited talk. Wisconsin Lakes Convention, Green Bay, WI.
- The Global Lake Ecological Observatory Network. 2009. National Science Foundation exhibit, American Association for the Advancement of Science Annual Meeting, Chicago, IL.

Media coverage

- *Cool Green Science* blog. Dec. 2013. "[Conserving Lake Trout Among the Philosophers.](#)"
- *Science*. Nov. 2013. "[Understanding lakes near and far.](#)"
- *Parcs Québec* blog. Nov. 2013. "[La gestion du niveau d'eau au Grand lac Saint-François : y a-t-il un impact sur la biodiversité?](#)"

Other

- Co-organized a special session on the implications of global browning for lake ecosystems, Ecological Society of America meeting, 2012.

- Co-organized a special session on global comparisons of ecosystem metabolism in freshwater ecosystems, American Society of Limnology and Oceanography meeting, 2010.

HONORS AND AWARDS

Award for Teaching Excellence, Faculty of Agricultural and Environmental Sciences, McGill Univ. 2014.

U.S. NSF Graduate Research Fellowship, 2004-2007

Univ. of Wisconsin graduate fellowship, 2003

U.S. Congress Goldwater Scholar, 1999-2001

Cornell University National Scholar, 1997-2001
